

Trend Micro Awarded 5-Star Rating in CRN's 2015 Partner Program Guide

Annual guide recognizes the best channel partner programs in the market

DALLAS--([BUSINESS WIRE](#))--Trend Micro Incorporated (TYO: 4704; TSE: 4704), a global leader in security software and solutions, announced today it has been awarded a 5-Star rating in The Channel Company's [CRN](#)® 2015 Partner Program Guide. This annual directory is the definitive listing of technology vendors that service solution providers or provide products through the IT channel. The 5-Star Partner Program rating recognizes an elite subset of companies that offer solution providers the best partnering elements in their channel programs.

The award-winning [Trend Micro™ Partner Program](#) enables more than 50,000 [channel partners](#) to more quickly and fully capitalize on the growing market for solutions that address today's key security trends, including the consumerization of IT, cloud and virtualization, and cyber threats. This global program provides a comprehensive set of financial, technical, sales and marketing benefits, for resellers, systems integrators, managed service providers, and now cloud services providers.

"We're extremely excited by the growth we're seeing in our partner program, particularly with respect to the interest expressed by cloud services providers — including many AWS, Microsoft Azure, and VMware vCloud Air public cloud consulting partners — that are eager to embed our security solutions into their cloud services offerings," said Partha Panda, vice president, global channels and alliances, Trend Micro. "As a company who strongly values working cohesively with partners to provide the best solutions possible, we are honored to be awarded the prestigious 5-Star rating by The Channel Company."

To determine the 2015 5-Star recipients, The Channel Company's research team assessed each vendor's application based on investments in program offerings, partner profitability, partner training, education and support, marketing programs and resources, sales support and communication. The CRN Partner Program Guide is a resource solution that providers rely on to discover, research and evaluate various vendor partner programs. The information in this guide is important as providers weigh and compare the benefits and incentives offered by manufacturers when making their vendor selections. Along with the value of a brand, products and market position, the partner program is an integral part of the overall value a solution provider will look for in a vendor.

"Solution providers have a lot of choices when it comes to selecting vendor partners. Identifying the right vendor, with the right technologies and approach can make all the difference," said Robert Faletra, CEO, The Channel Company. "Our annual Partner Program Guide and 5-Star rating recognizes the best channel programs available in the market today to help solution providers determine which vendors deliver the best partner elements for their individual business goals."

The 2015 Partner Program Guide will be featured in the April issue of CRN and online at [www.CRN.com](#).
