

Trend Micro Wins VMware Global Partner Innovation Award

Nearly a Decade Long Partnership with VMware Topped by Award for Continued Extraordinary Performance

DALLAS--([BUSINESS WIRE](#))--[Trend Micro Incorporated](#) (TYO: 4704; TSE: 4704), a global leader in cybersecurity solutions, today announced that they have been honored as the global winner of a VMware 2016 Global Partner Innovation Award in the Technical ISV category. Trend Micro was recognized at VMware Partner Leadership Summit 2017, held in Rancho Palos Verdes, Calif.

"I am pleased to recognize this year's Global Partner Innovation Award winners, which are given to a select group of partners for their exceptional efforts in 2016," said Ross Brown, senior vice president, Worldwide Partners and Alliances, VMware. "VMware is proud to see Trend Micro win Partner of the Year and we look forward to our continued collaboration."

Since 2011, Trend Micro has been recognized every year by VMware for the Japan Partner Award. However, this is the first year the company has received the Global Technical Partner Award. Recipients of a Global VMware Partner Innovation Award were acknowledged in 21 categories for outstanding performance and distinctive achievements during 2016.

"We have a long-standing history of innovation and success with VMware," said Partha Panda, vice president of corporate and business development for Trend Micro. "More than 10 years ago we partnered to bring modern security to the software-defined data center and cloud, and since then have continuously enhanced our relationship. We've had many successes along the way with joint product innovation, sales activity, and tech support collaboration, making us particularly proud of an award that recognizes the strength of our partnership."

Trend Micro [Deep Security](#)™, powered by [XGen](#)™, has been specifically built and optimized to secure [VMware](#) customers around the world. Modern data centers using VMware products are able to fully protect their hybrid cloud environments from the latest threats without slowing down business operations. Additionally, Trend Micro recently integrated its Mobile Security for Enterprises with VMware Airwatch to protect organizations from unsecured mobile devices.

About VMware Partner Leadership Summit

VMware Partner Leadership Summit 2017 offered VMware partners the opportunity to engage with VMware executives and industry peers to explore business opportunities, customer use cases, solution practices and partnering best practices. An invitation-only event, VMware Partner Leadership Summit 2017 provided partners with resources to develop and execute comprehensive go-to-market plans in 2017 and beyond. The event concluded with awards ceremonies recognizing exemplary achievements in the VMware Partner ecosystem.
