TOKYO, May 11, 2023 /PRNewswire/ -- **Trend Micro Incorporated (TYO: 4704; TSE: 4704)**, a global cybersecurity leader, today announced earnings results for the first quarter of fiscal year 2023, ending March 31, 2023 by reporting 16% year-over-year growth.

Trend Micro's business resilience continues to be achieved by diversifying between both enterprise and consumer customers spanning more geographies than any pure play cybersecurity company. With a singular focus on cybersecurity, these results were powered by a customer base of over 500,000 organizations across more than 175 countries.

As the growth engine for the company, the enterprise customer segment grew 20% YoY net sales at actual currency driven by a 9% increase in SaaS deployments globally. Enterprise ARR increased by 25% YoY totaling more than US \$692 at the company's internal plan exchange rate. The company protects over 68 million enterprise assets at a growth rate of 29% YoY.

As the value engine for the company, Trend continued to invest in its consumer business growing across all geographies at 6% YoY net sales at actual currency.

"We too see the economy impacting markets and expect this to continue for the remainder of the year despite cybersecurity being identified as a critical priority," said Trend Micro CEO and co-founder Eva Chen. "Organizations worldwide are tightening budgets and prioritizing vendors who understand and ease the pressures of the security operations center. We proudly empower every organization to thrive in a world with less risk."

For this quarter, Trend Micro posted consolidated net sales of 58,704 million Yen (or US \$443 million, 132.40 JPY = 1USD). The company posted operating income of 9,548 million Yen (or US \$72 million) and net income attributable to owners of the parent of 6,374 million Yen (or US \$48 million) for the quarter.

The company will not revise expected consolidated results for the full fiscal year ending December 31, 2023 (released on February 16, 2023). Based on information currently available to the company, consolidated net sales for the year ending December 31, 2023 is expected to be 248,500 million Yen (or US \$1,840 million, based on an exchange rate of 135 JPY = 1 USD). Operating income and net income are expected to be 34,800 million Yen (or US \$257 million) and 25,100 million Yen (or US \$185 million), respectively.
