"Global organizations are increasingly turning to XDR to detect and respond to threats across their IT environment, but not all solutions are created equal," said Kevin Simzer, COO at Trend. "As the G2 Grid once again illustrates, we're consistently staying ahead of the market by anticipating and proactively meeting needs across the industry."

Customers ranked the Trend Vision One XDR Platform second out of 59 XDR vendors in the Summer 2023 G2 Grid.

G2 is one of the world's largest software review platforms and a trusted, impartial source of information which prospective buyers often consult in the early stages of their journey.

In addition to being ranked a leader in terms of market presence and customer satisfaction, Trend Vision One also received several "badges" for the Summer 2023 G2 Grid, including:

- Leader: Mid-Market
- Leader: Enterprise
- Best Results: Enterprise
- Best Usability: Enterprise
- Best Relationship: Summer 2023
- Momentum Leader
- Leader: Summer 2023
- High Performer: Small Business

Trend Vision One [recently enhanced](#) with the addition of Trend Vision One™ – Companion, a new generative AI assistant designed to streamline processes and empower analysts to make better informed decisions on threat response and containment.

About Trend Micro

Trend Micro, a global cybersecurity leader, helps make the world safe for exchanging digital information. Fueled by decades of security expertise, global threat research, and continuous innovation, the Trend cybersecurity platform protects hundreds of thousands of organizations and millions of individuals across clouds, networks, devices, and endpoints. As a leader in cloud and enterprise cybersecurity, the platform delivers a powerful range of advanced threat defense techniques optimized for environments like AWS, Microsoft, and Google, and central visibility for better, faster detection and response. With 7,000 employees across 65 countries, Trend enables organizations to simplify and secure their connected world.
